

CARRAJUNG ESTATE

LOOK BOOK

The Lodge

A warm embrace in the heart of the estate.

Tucked into the lush, undulating hills of Carrajung, The Lodge is where luxury meets laid-back country charm. Designed for connection, comfort, and calm, this beautifully restored homestead offers guests a place to gather, to breathe deeply, and to immerse themselves in the beauty of Gippsland's natural landscape.

With its rich timber detailing, soft natural tones, and layered textures, The Lodge feels immediately familiar—like an old friend welcoming you home. From the crackle of the open fire to the long farmhouse table made for shared meals and slow conversations, every element of The Lodge invites you to slow down and stay a while.

Perfect for intimate group stays, creative retreats or extended family getaways, The Lodge comfortably sleeps up to ten, with generous living spaces, a fully equipped country kitchen, and thoughtful styling throughout.

Outside, the wraparound verandah offers panoramic views of the vineyard and surrounding bushland. Enjoy a morning coffee as the mist lifts over the vines, or a glass of estate pinot noir as the sun dips below the ridgeline. The rhythm of the land sets the pace here.

The Nest

An elevated escape, just for two.

Perched on the edge of the ridge and surrounded by whispering eucalypts, The Nest is Carrajung Estate's most intimate retreat. Purposefully designed for two, it offers a private, peaceful haven where you can completely switch off and tune in—to nature, to stillness, and to each other.

With sweeping views over the vineyard and valleys beyond, The Nest feels like it's floating above the landscape. Floor-to-ceiling windows frame the ever-changing skies, while soft interiors bring a sense of warmth and grounding. Every detail has been considered—from the slow-burning fire and stone bathtub to the natural linens and curated art—to create a space that invites rest, reflection, and romance.

Whether you're soaking in the outdoor tub under the stars, curled up with a book by the fire, or sharing a bottle of estate-grown shiraz on the deck, The Nest is an invitation to slow the world down. It's secluded, serene, and just a little bit magical.

INTERIOR DESIGN FOCUS: WHAT WAS IT LIKE WORKING WITH BUILDHER'S INTERIOR DESIGN SERVICE?

I loved it so much we're already in talks with BuildHer for our next project. They took what I had in my mind and executed it perfectly. I'm the type of person who knows what I like and know what looks good but have a lot of difficulty in putting it together. They recommended so many little things I hadn't considered and took the 'decision fatigue' out of it. Otherwise, I would agonise for hours over the shape of a light fitting!

WHAT WOULD YOU SAY TO SOMEONE THINKING OF JOINING THE DEVELOPER MASTERCLASS?

For me it's a no brainer in recommending someone join DevelopHer if they want to make sure they're putting themselves in the best position to successfully develop. Not only by making the entire process easier through being more educated and therefore confident, but having the support of the team and extended BuildHer network (the Facebook group is GOLD when you're wanting to ask questions or brainstorm issues).
