LOOK BOOK

Kitchen

The kitchen is the heart of the home - it is the space that we wanted to shine. We had a clear vision of the functionality and also the look and feel of the space.

We made a call to venture beyond the white on white and add a colourwash to the space with the joinery and the walls in the same tone.

Living

The living space was planned around this stunning lounge suite. Having an open area that allows for many people and greater functionality was really important in the design.
